

Castrol TQ 95 – Automatic Transmission Fluid

Is the only OEM Approved fluid for BTR-A Transmissions.

Castrol TQ 95 has unique friction characteristics to ensure smooth shifts and to prevent squawk during gear changes. It has enhanced wear control to ensure long gear set life. It also has high viscosity stability to ensure consistent shifts throughout the life of the fluid.

Under no circumstances should alternative fluids be recommended as a suitable equivalent. Non-approved fluids will result in loss of shift performance and reduced transmission life.

Ford - All automatic Ford Falcon, Fairlane and LTD models manufactured in Australia.

Maserati – All Automatic 1995 to 2001. Models 3200GT, Quattroporte

Ssangyong - vehicle models that have M74LE model BTR-A transmissions.

Rexton -4WD
