

# SPECIAL SERVICE TOOLS CATALOG (特殊维修工具手册)

## FOREWORD

This catalogue has been prepared to provide information about special service tools for new **SSANGYONG** vehicles.

Special tools have been developed and tested by **SYMC** with the aim of increasing operational accuracy, safety and efficiency, and preserving quality when **SSANGYONG** vehicles are inspected, diagnosed and serviced.

These special tools are manufactured specially for use under the prescribed and authorized service procedures as described in service manuals, bulletins and other publications of **SYMC**.

We encourage you to have a set of necessary tools which are listed in this catalogue.

If you have any questions regarding this information, please do not hesitate to contact us.

All information and illustration contained in this catalogue are based on the latest product information available at the time of printing.

**SYMC** reserves the right to make changes at any time without notice and without incurring any obligation whatsoever.
