GÜDEL’s expertise is in the development and manufacture of linear and drive components, and in the associated advisory services.

GÜDEL's product range of components, linear axes and robots, combined with the company's know-how in engineering and controls, provides the basis for your machine and system solutions. GÜDEL's demonstration system at the exhibition is representative of a wide range of possible uses in various industries.

GÜDEL CONTROLS, the company division responsible for integrating hardware and software, demonstrates how the control processes can be synchronised.

Total solutions

we put the movement into your process:

AUTOMOTIVE
PRESS AUTOMATION
POWERTRAIN
MACHINING CELL
BODY DECKING

INTRALOGISTICS
FOOD, BEVERAGES
NON-FOOD
TIRED
GREEN TIRE
FINISHED TIRE
MACHINERY

RENEWABLE ENERGY
SOLAR/PHOTOVOLTAIC
WIND POWER

RAILWAY
MACHINING CELL
AXLE & WHEEL MACHINING LINE
WHEELSET ASSEMBLY

AEROSPACE
RECYCLING
GLASSWARE
CLEAN ROOM
WOOD

COMPOSITES
TOOL CLEANING
PRODUCTION EQUIPMENT
METALWORKING
BENDING
CUTTING

EN
**AVAILABILITY**

Installations that run non-stop are connected with GÜDEL support seven days a week, twenty-four hours a day.

It is the duty of GÜDEL’s service technicians to provide quick response times in order to maintain maximum availability of the system.

Thanks to GÜDEL’s modular system, all spare parts are available worldwide.

**SPECIALISTS**

GÜDEL provides full support at every stage of the project. Our specialists accompany the client during the needs assessment and in the installation and commissioning phases.

GÜDEL certifies your system in accordance with the applicable industrial standards and provides certifications worldwide.

GÜDEL trains your employees in the operation and maintenance of your installation. GÜDEL is committed to maintaining the availability of your system round the clock.

**SWISS QUALITY**

GÜDEL manufactures worldwide in its own factories in accordance with Swiss quality standards. Checks on quality, deadlines and costs at every level provide transparency and reliability.

This applies not only to your installation, but also to the hardware, software, interfaces and optimisation processes as a whole.

**OVERALL PERFORMANCE**

At GÜDEL, everything is done ‘in house’ technology, manufacture and installation. The client benefits from the overall performance in consultation, planning and implementation.

GÜDEL works closely with the client to develop the installation. Thanks to GÜDEL’s intelligent linear and modular axes, the customer benefits from a cost advantage and an increase in efficiency.

**FOCUS**

An investment in a system made by GÜDEL is a wise economic move, because production will increase and profits rise as a consequence.

GÜDEL systems can be seamlessly integrated into any process.

GÜDEL provides full advisory services on site, draws up the layout and then assembles the installation accordingly. The result is a 3-D simulation that exactly reflects the flexibility and the output.

**GUDEL**

«In a rapidly-changing world, we aim to set an example in terms of stability, ethics, behaviour and responsibility towards our customers, employees, business partners and the environment.»

GÜDEL has been a family-owned firm since 1954 and has developed into one of the leading global technology companies for sophisticated system applications in automation, linear and drivetrain technology.

Based in Switzerland, GÜDEL is active worldwide and has approximately 950 employees on twenty different production, sales and service sites on all five continents.

GÜDEL develops, manufactures and markets automation solutions and machine components that increase the productivity of manufacturing and service processes. The company’s products are used in industry, transport, energy, logistics and warehousing.

«In a rapidly-changing world, we aim to set an example in terms of stability, ethics, behaviour and responsibility towards our customers, employees, business partners and the environment.»

Rudolf Güdel
